

Mr. L. V. Davis and Miss Mollie Edmonds have returned from Cincinnati.

Mr. Samuel Kenner of Mt. Carmel has returned home after a visit to his daughter, Mrs. John Smith.

Miss Bettie Darvall has returned to her home in Elizaville after a visit to the family of Mr. C. W. Darvall.

Colonel Frank S. Owens and Mr. John C. Adkinson are at Lexington, Va., where the Colonel will spend a week or so.

Mr. and Mrs. William Huff of Carlisle and Mrs. Ella Crowell of this city are guests of Mr. and Mrs. J. M. Huff at Ashland.

Mr. and Mrs. H. C. Sharp went to Carlisle Wednesday to attend the Rose-Walker nuptials. The bride is a sister of Mr. Sharp.

Miss Carolyn H. Calder, after an extended visit to her mother, has returned home, accompanied by her cousin, Miss Etta B. Gore, who will be her guest several weeks.

Matter for publication in The Ledger MUST be handed in before 9 o'clock in the morning.

Harts are no longer trumps in the Congressional game.

L. N. Foster has been granted liquor license by the County Court.

Joseph Crawford is improving from a serious attack of typhoid fever.

Samuel Mandley and Miss Amanda Harding, both of Bath county, married yesterday at the Central Hotel.

Joseph B. Grigsby of Bardis and Miss Maggie Dye of Mason county married Wednesday at the Central Hotel.

The Chesapeake and Ohio Road will, it is understood, hereafter make big bids for the cattle hauling of the West.

On the face of the returns, Ed. Daum, Republican, has a majority of seven votes for County Attorney in Bracken.

C. D. Ellis and Miss Dallas Boone, both of Bracken county, married yesterday at the Clerk's Office by Judge Piester.

J. C. Stevenson of Murphysville and Miss Emma C. Sowa of Lewisburg married yesterday at the home of the bride.

Jasper N. Campbell, aged 29, and Miss Perry D. Prather, aged 15, married yesterday at the home of the bride's parents in this county.

The Mason County Teachers' Association and Reading Circle will meet at Superintendent Blatterman's office tomorrow morning at 10:30.

Uncle Benny Mills of Fleming has been quite ill the past week. November 29th will be his 93rd birthday. Mr. Mills is an uncle of Mr. Lud M. Mills of this city.

About the clearest sweeping done by the renovated Republican broom was in Michigan, where out of 122 members of the General Assembly elected only one Representative is a Democrat.

The Republican Congressional Committee now claims that 290 of the 356 members of the next House will be Republicans, with a possibility of securing 27 more. Oh, we're not hogfish; 290 will do.

Bierhofer & Co. have a big lot of tin-horns, ordered by Democrats in an ante-election fit of enthusiasm. They must remain in stock unless Republicans buy them. Keboe & Company can't use them in their business this year.

The Committee on Claims and Accounts met at the Council Chamber last evening and compared the 'taxbooks' turned over by ex-Chief of Police E. W. Fitzgerald. The Committee found everything in perfect order, and that Captain Fitzgerald's accounts with the city are square to a cent.

Mrs. Mary Jackson, one of the best cooks in town, will give a supper Saturday, November 10th, at the colored Odd-fellows Hall, Sutton street. She asks the patronage of all her friends, both white and colored. Admission free. Supper served from 6 o'clock on. Music by the string band, no dancing.

In Fleming the Democratic nominees for county officers were all elected except Saunders for Jailor. He was defeated by the present Jailor, Colonel Elias Collins, by over 100 majority. John Hart lost the county by 87 votes. The Democratic candidates who had opposition have very small majorities, ranging from 10 to 30.

Said little Willie once one day: "I think it would be quite to hide this chestnut butt away in mamma's Sunday boot!" His mamma found it by her heels, And little Willie Booe Cannot sit down, but eats his meals Off of the mantelpiece.

What We May Expect For The Next Twenty-four Hours.

THE LEDGER'S WEATHER SIGNAL.  
WHERE REPORTED—FAIR: BIRD—RAIN OF SNOW: WITH DRIZZLE AFTER—TWILIGHT—WARMER: IF BLACK'S BARRAGE—COLDEN—WET: THUNDER—BLACK'S SHOW—NO CHANCE WE'LL SEE.

Alexander M. Rogers of Orange City gets an increase of pension.

Mayor Hill of Aberdeen fined W. H. Herbert & Son \$30 for selling liquor to a son of Mrs. Tom Herbert.

Edward Warrick, aged 34, and Miss Nannie Belle Lowe, aged 19, both of Mason county, married yesterday in this city.

Miss Lida Pollitt of East Third street, who has been seriously ill for several days past, is a great deal better this morning.

The Shoe Factory will run from 7 until 9 o'clock this evening. The stockholders are expected to come. Children will not be urged. All others made welcome.

The effects of the election are already being felt. A new grocery store has been started in the First Ward, and five major licenses were issued by the County Clerk yesterday.

While making an arrest on Wood's corner Monday night, Chief of Police Orr handed his umbrella to a gentleman. He didn't intend to prevent it to him. So the gentleman will confer a favor by returning it.

Miss Lizzie Stewart died at the home of Mr. M. Barrett in Cincinnati yesterday afternoon at 4 o'clock. The remains will be buried at Flemingsburg tomorrow.

She was an aunt of Mrs. C. W. Darvall of this city and Mrs. B. F. Conington of Carlisle.

The echo of this morning's election, cloudy, dark and drear, streets quiet and deserted. Nature combines the appropriate fall to the chagrin and disappointment to the manyaching hearts that are weary and sore, careless that the gloom of this day may run into the night, until the yawning of the conquered may prevent their force and not break in fitful sleep, and oblivion mellow the strain. Bate's Scipio, in his triumphal march from the stage of Carthage, arrayed in the purple and gold livery of the conqueror, leading in his train of captives, princes and nobility harrowed and in chains, his countenance beaming with the mien of a god, his mentor plucked his garment with the continuous admonition, "Scipio, remember thou art but a man!"

SHOOTING IN GREENUP.

A Deputy Sheriff Shot an Hon-Bah Parties Room.

At Greenup early Wednesday morning Deputy Sheriff Dennis B. Warnock shot John Hollingsworth through the abdomen, inflicting a fatal wound.

The parties with a crowd were talking over the election returns.

Warnock was drinking and had been going around repeating "What I have under my foot will stay there."

No one knew what he meant and when asked he replied, "It don't matter a damn, what I have under my foot will stay there."

Edward Hollingsworth, son of the man shot and who was also drinking, walked up and shoved Warnock over a stove.

As he fell he drew a pistol and fired, the ball taking effect on the bowels of John Hollingsworth, who had jumped between his son and Warnock.

Warnock had his examining trial, when he was bound over in \$800 to the Grand Jury.

Hollingsworth is expected to die at any moment.

This is the fourth murder in Greenup county within the last five months.

PUGH-RIFIED!

That's What's the Matter With the Ninth District.

PARIS, October 19th, 1904.  
To the Editor of the Ledger: When we exchanged "good bye's" one pleasant morning last summer, on the Plaza de Conz, you did me the honor to request that I should drop The Ledger a few lines from abroad. You placed me under obligation by the compliment and I now gratefully seize the opportunity to respond.

But, in complying with your request, I hasten to anticipate the unpleasant question which a stereotyped transcript of travel from Murray, or Blandford, would provoke, by giving you some facts and opinions of inner interest and of real value, in regard to the "anti-toxic serum" in the treatment of diphtheria.

The interest excited by this moving theme will speedily extend to every corner of the civilized world, since it involves considerations of vital importance to the health and happiness of every branch of human life. It is the question of serotherapy, or the use of an "anti-toxic serum" in the treatment of diphtheritic disease, and there is the civilized community that is not practically apprised by the approach of that insidious and hateful scourge, even to the most enlightened.

La serotherapie, or the method of vaccination against diphtheria, has been recently introduced at the Hospital Pasteur by Dr. Roux, this city, with the qualified sanction and approval of his great master and associate, whose fertile and inexhaustible theory of antibodies promises to give a perpetual return of practical results to "The patient search and vital lung" of such admirably equipped investigators as Behring, Kiebs, Yersin and Roux, that must be the most complete, most precious figure of a remarkably distinguished group. He is practically the originator of serotherapy.

The extreme importance of the new method is sufficiently indicated by the fact that the Academy of Medicine, in response to a demand from the French Government, recently appointed a commission of eminent and experienced members to investigate the method, and to report on the sero-therapeutic vaccine. The report of this commission has just been published, and its conclusions have been approved and adopted by a unanimous vote.

The report is characteristically thorough and complete; nothing is overlooked; experiments and observations are carefully detailed, and the results are clearly stated, facts and principles are precisely stated; doubts thoroughly resolved; conclusions carefully drawn.

The method is submitted—First, they explain why the investigator selected the serum of the horse; then, the mode of preparing the vaccine; then, the method of injecting it under the skin, as is daily practiced by the physicians of the Hospital Pasteur.

As to the reduction of mortality, under the Roux or Behring method of treatment, it is very marked, even as shown by the initial results, which are usually not so favorable, but there is no doubt that with experience in the application of the method, still better results will be obtained. As it is an initial reduction of 50 per cent in the death rate from diphtheritic disease, offers but little ground for complaint. Two members of the commission, who are specially interested in infantile pathology, have applied the sero-therapeutic method to the treatment of diphtheritic cases in the Hospital Pasteur.

The effects produced were immediate and remarkable; there was a notable amelioration of the general symptoms; a rapid decline in the fever; a speedy disappearance of the palor, the oppression, and the constitutional prostration.

It having been shown experimentally that the "anti-toxic serum" has an immunizing, or protective, effect upon the lower animals, the method is submitted—First, they explain why the investigator selected the serum of the horse; then, the mode of preparing the vaccine; then, the method of injecting it under the skin, as is daily practiced by the physicians of the Hospital Pasteur.

As to the reduction of mortality, under the Roux or Behring method of treatment, it is very marked, even as shown by the initial results, which are usually not so favorable, but there is no doubt that with experience in the application of the method, still better results will be obtained. LA SERO-THERAPIE.

PARIS, October 19th, 1904.  
To the Editor of the Ledger: When we exchanged "good bye's" one pleasant morning last summer, on the Plaza de Conz, you did me the honor to request that I should drop The Ledger a few lines from abroad. You placed me under obligation by the compliment and I now gratefully seize the opportunity to respond.

But, in complying with your request, I hasten to anticipate the unpleasant question which a stereotyped transcript of travel from Murray, or Blandford, would provoke, by giving you some facts and opinions of inner interest and of real value, in regard to the "anti-toxic serum" in the treatment of diphtheria.

The interest excited by this moving theme will speedily extend to every corner of the civilized world, since it involves considerations of vital importance to the health and happiness of every branch of human life. It is the question of serotherapy, or the use of an "anti-toxic serum" in the treatment of diphtheritic disease, and there is the civilized community that is not practically apprised by the approach of that insidious and hateful scourge, even to the most enlightened.

La serotherapie, or the method of vaccination against diphtheria, has been recently introduced at the Hospital Pasteur by Dr. Roux, this city, with the qualified sanction and approval of his great master and associate, whose fertile and inexhaustible theory of antibodies promises to give a perpetual return of practical results to "The patient search and vital lung" of such admirably equipped investigators as Behring, Kiebs, Yersin and Roux, that must be the most complete, most precious figure of a remarkably distinguished group. He is practically the originator of serotherapy.

The extreme importance of the new method is sufficiently indicated by the fact that the Academy of Medicine, in response to a demand from the French Government, recently appointed a commission of eminent and experienced members to investigate the method, and to report on the sero-therapeutic vaccine. The report of this commission has just been published, and its conclusions have been approved and adopted by a unanimous vote.

The report is characteristically thorough and complete; nothing is overlooked; experiments and observations are carefully detailed, and the results are clearly stated, facts and principles are precisely stated; doubts thoroughly resolved; conclusions carefully drawn.

The method is submitted—First, they explain why the investigator selected the serum of the horse; then, the mode of preparing the vaccine; then, the method of injecting it under the skin, as is daily practiced by the physicians of the Hospital Pasteur.

As to the reduction of mortality, under the Roux or Behring method of treatment, it is very marked, even as shown by the initial results, which are usually not so favorable, but there is no doubt that with experience in the application of the method, still better results will be obtained. As it is an initial reduction of 50 per cent in the death rate from diphtheritic disease, offers but little ground for complaint. Two members of the commission, who are specially interested in infantile pathology, have applied the sero-therapeutic method to the treatment of diphtheritic cases in the Hospital Pasteur.

destructive course. But the Master's work will not perish. It is well done and it will last. The doctrine of diphtheria is rich with promise, and, the more we study it with the loyal maintenance of that benighted tradition, will yield marvellous results. If this inspiring hope should prove illusory and the weakly pessimist indulges foodstuffs, even here, then, vain is the help of man. Humanity must still struggle on with its burden of unattractive life until the end.

The papers this morning announced that applications for the anti-toxic serum are poured in from every part of France, but decided that it will be fully two months before the Institute is prepared to meet the general demand. The Academy of Medicine has set the question for France, and if there be a poor devil of a septic elsewhere, his objections are dismissed without consideration and he is indignantly stigmatized as an ass. The statistics of sero-therapy have been verified with scrupulous accuracy, and are proof alike against capricious criticism, puerile denunciation, and theoretic doubt. They establish beyond all question the claim of Messrs. Behring and Roux that the anti-toxic serum is a preventive as well as a cure! But in conceding all honor to Messrs. Behring and Roux, let us not forget the many who have discovered their stupendous secret was made possible only through the marvelous researches of Pasteur, who stands by virtue of his fact, indisputably among the foremost of the benefactors of the human race. From a merely economic point of view, we can calculate the immediate and prospective value of such a citizen to the state? His achievements in the field of science are those victories of peace, of which Milton wrote:—"Not less renowned than war."

It is a fascinating subject and volumes would scarcely exhaust the imperial theme. But in America, even the printer's devil has rights when a correspondent must respect. In conclusion, I beg that you will present my compliments to my friends on the Board of Education, and express to them my regret that I cannot—hardly written in a moment of practical results to "The patient search and vital lung" of such admirably equipped investigators as Behring, Kiebs, Yersin and Roux, that must be the most complete, most precious figure of a remarkably distinguished group. He is practically the originator of serotherapy.

The extreme importance of the new method is sufficiently indicated by the fact that the Academy of Medicine, in response to a demand from the French Government, recently appointed a commission of eminent and experienced members to investigate the method, and to report on the sero-therapeutic vaccine. Two members of the commission, who are specially interested in infantile pathology, have applied the sero-therapeutic method to the treatment of diphtheritic cases in the Hospital Pasteur.

The effects produced were immediate and remarkable; there was a notable amelioration of the general symptoms; a rapid decline in the fever; a speedy disappearance of the palor, the oppression, and the constitutional prostration.

It having been shown experimentally that the "anti-toxic serum" has an immunizing, or protective, effect upon the lower animals, the method is submitted—First, they explain why the investigator selected the serum of the horse; then, the mode of preparing the vaccine; then, the method of injecting it under the skin, as is daily practiced by the physicians of the Hospital Pasteur.

McKINLEY AND WILSON ABROAD.

In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield; but in 1894 William L. Wilson was dined and wine in London because he is the author of a Free-trade Tariff Bill. These are significant facts.

The Ashland Sun puts it this way:—A. P. A.—American Property Assured.

WHAT a pity Br'er MARR has patented his ante-election predictions. They were so unique that any infringement should be prosecuted.

THANK YOU, GROVER, for that Thanksgiving Proclamation. We now have very much to be thankful for. "Praise God from whom all blessings flow."

THE Hon. WILLIAM L. WILSON, President GROVER CLEVELAND's eminent Chairman of the Ways and Means Committee, can now return to England and tell the Brits what a blessing Free-trade is. Next to the demolition of the Democratic candidates in Mason county, the defeat of WILSON in West Virginia is the feature of the great Republican landslide.

It will take Br'er MARR the rest of his natural life to recover from yesterday's shock to his nervous system.—Public Ledger.

Speaking from experience, are you? Say, you haven't recovered yet from the loss of that \$2,400 in '92, have you?—Bulletin.

Oh, yes; we'd forgotten all about that. But, since you have brought it up, do you expect to step into the \$2,400 hole in 1899 that you didn't get in 1892?

"The sugar market has spiked the heaviest gun in the Republican battery. As the removal of the duty on raw sugar and the corresponding reduction in the duty on refined sugar under the McKinley Tariff Act told immediately and with full force upon the domestic sugar market, the Republicans felt sure the reimposition of a duty on sugar by the present tariff would operate as effectively in the opposite direction. They confidently expected that the price of sugar would advance to the full equivalent of the new duty. This was, on the face of matters, an entirely reasonable expectation, but the course of the sugar market has turned it to disappointment."—Boston Herald.

To which The Commercial Gazette pointedly replies that there is no gun spiked in the Republican battery—not one. The Republicans put sugar on the free list because it is not a home product to the extent of more than six or seven per cent of our consumption, and the Republicans gave a bounty to sugar producers in order to encourage the cultivation of the sugar cane and sugar beet, that we might speedily find all the sweets we want in our own soil. The removal of the duty on raw sugar by the Republicans reduced the price of it—there is no doubt of that—and the placing of a tax of forty-four per cent. of the value of it upon raw sugar is as certain to advance the price as any simple proposition in mathematics, such as two and two make four. The market is unsettled because the sugar dealers raised the world to find raw sugar to run before the article was taken from the free list. The excess in stock in the instance which prevents for the moment the natural advance. The Sugar Trust knew too much, and overreached themselves—a way trusts have.

EVEN old man HOLMAN, the great objector, is defeated in Indiana. It is a dreadfully bad year for Democrats.

THE Editor of THE LEDGER has so much to be thankful for that he has to call upon an assistant. After thirty years of political warfare, with a Democratic majority of nearly 2,000 at the beginning, he has lived to see the Republican party victorious in Mason county. (To be praised.)

The political situation was very well expressed recently by an old farmer who has been for many years a wheel-horse in the Democratic ranks in Jefferson county, says the Louisville Commercial. He approached an old-time Republican, with whom he had contested many political battles, and said: "Well, Sir, I am going to surprise you."

"How are you going to do that?" replied Sir.

"Why, this way," said the Democratic wheelhorse, "I am going to vote the whole Republican ticket, and," he said, "I don't want you to misunderstand me, Sir, I have always thought the Republican party was a set of d—d rascals, and I haven't changed my mind, but, after careful observation, I have come to the conclusion that the Democratic leaders are a set of d—d fools. I can watch a d—d rascal, but I never can watch what a d—d fool is going to do, and I am going to vote your ticket."

This is the practical way in which many sensible Democrats look at the present political situation. They have not given up their prejudices against the Republican party, but they have the utmost contempt for the business incapacity demonstrated by the Democratic leaders.

**\$100—Reward—\$100.**  
The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only cure known to the medical fraternity. Catarrh is a local disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. THE SENATE

Now Claimed by the National Republican Leaders.

In Six New England States There is Apparently Only One Democrat

Elected to Congress, Fitzgerald, of Boston—New York has five and Pennsylvania two. A total of Eight Democrats Out of One Hundred Members.

NEW YORK, Nov. 9.—In no state and in no city have the Democrats been able to check the stampede of voters to the republican standard bearers. In rock-ribbed republican states like Pennsylvania enormous pluralities have been piled up, and in states like New York and New Jersey, which are usually classed in the democratic column, the republicans have made clean sweeps.

The latest estimates from Pennsylvania indicate that the plurality of Gen. Hastings will exceed 100,000. More has carried New York state by close to 150,000.

The congressional delegation, which stood the Democrats to be republican in the Fifty-third congress, will be 29 republicans and 5 Democrats in the Fifty-fourth congress.

The state assembly will stand 104 republicans to 24 Democrats. The constitutional amendments framed by the late constitutional convention have been carried by big majorities. In the middle and western states democratic congressmen seem to have almost entirely disappeared.

In the six New England states there is apparently only one Democrat elected to congress—Fitzgerald, of Boston. New York has five and Pennsylvania two, a total of eight Democrats out of 100 members.

In Connecticut and Delaware big republican gains have been made. In New Jersey the state legislature, with the exception of four Democrats, appears to have been captured by the republicans, and McPherson will be succeeded by a republican in the United States senate.

Senator Camm (Dem.), of West Virginia, will also have a republican successor. The next senate, as well as the house, it is claimed, will be republican.

**Texas Cotton Palace.**  
Waco, Tex., Nov. 9.—Elaborate ceremonies marked the formal opening Thursday of the Texas cotton palace. Distinguished visitors were present from all parts of the state, as well as a number from neighboring states and the north, and the day was observed as a general holiday. The Texas cotton palace, which was organized by the citizens of Waco, who subscribed \$250,000 for the erection of a magnificent building with a front of 400 feet and a depth of 100 feet, is a masterpiece of architecture. The building is a masterpiece of architecture, and the interior is a masterpiece of architecture. The building is a masterpiece of architecture, and the interior is a masterpiece of architecture. The building is a masterpiece of architecture, and the interior is a masterpiece of architecture.

**Portland, Me., Nov. 9.**—Fire early Thursday morning in the electric light works caused damage of less than \$1,000 to the building, but all the valuable machinery used for lighting the city was destroyed with water, so that the loss will be \$50,000, and perhaps more. The company gives out an estimate of the loss as about \$100,000. The armories, occupied by national guard companies in the same building, were destroyed.

**Washington, D. C., Nov. 9.**—The election of Watson over Holman is officially announced by the committee. Congratulations are pouring in to Watson from republicans in all parts of the United States. Rush county gives him 751 plurality, a republican gain of 400. Preparations are being made for a grand ratification.

**Seattle, Wash., Nov. 9.**—Enough has been learned to state that the next legislature will be republican, with a probable majority of 30 on joint ballot. The republican congressional ticket is elected as well as supreme court judges. The populist state ticket will pull a heavier vote than the democratic.

**San Francisco, Cal., Nov. 9.**—The election of Watson over Holman is officially announced by the committee. Congratulations are pouring in to Watson from republicans in all parts of the United States. Rush county gives him 751 plurality, a republican gain of 400. Preparations are being made for a grand ratification.

**San Francisco, Cal., Nov. 9.**—The election of Watson over Holman is officially announced by the committee. Preparations are being made for a grand ratification.

ARMOR PLANTS

Printed as the "First Anywhere in the World."  
WASHINGTON, Nov. 9.—The two American armor plants at Bethlehem and Homestead, according to the annual report of Commodore Sampson, chief of naval ordnance, are the best equipped in the world, their development in the past year by the addition of powerful forging presses and Harveyizing furnaces being of such character as to represent actual advances in the art.

These establishments have now practically completed existing armor contracts, and should applications for additional armored vessels be deferred beyond the next session of congress, these magnificent plants, which cost \$10,000,000, would be practically idle for more than a year, their organizations would be broken up and the skilled labor created at much expense of time and money either lost or directed. Under these circumstances Commodore Sampson believes that better terms can be obtained on new contracts at the present time than later.

EXPERIMENT STATIONS.

Plans to be discussed for 1899 before the National Agricultural Experiment Stations.

WASHINGTON, Nov. 9.—The work of the agricultural experiment stations in this country will be thoroughly reviewed and plans discussed at the forthcoming eighth annual convention of the association of American colleges and experiment stations. The meeting will begin in this city next Tuesday and close Friday and a large gathering of agricultural experts is expected. Sessions will be held daily. Addresses will be made by Assistant Secretary of Agriculture Dabney, Commissioner of Education Harris and by various experts in agricultural matters. Reports will be received from committees and section chairmen and all sections will meet for organization and preliminary business. Gen. Stephen D. Lee, president of the Mississippi Agricultural and Mechanical college and president of the association, will deliver his annual address in the evening.

NOT TO BE REBUILT.

Brooklyn Tabernacle No More—Dr. Talmage's Plans.

BROOKLYN, N. Y., Nov. 9.—Leonard Moody, president of the Brooklyn Tabernacle board of trustees, called on Dr. Talmage and discussed with him the future of the tabernacle congregation and of Dr. Talmage's pastorate. To a reporter Dr. Moody said: "I strongly advised Dr. Talmage against rebuilding the tabernacle. I told him that in the face of the present hard times it would be impossible to raise the necessary money, and he agreed with me. I do not know whether a building will be rented for Dr. Talmage in New York. I do not know whether he will preach here at all. I think he will make Brooklyn his home, though I understand he has received calls from other cities. He has not made up his mind yet just what to do. He will await developments before deciding on any course of action."

**The Czar's Royal Shipboard.**  
St. Petersburg, Nov. 9.—The czar and his family, through the court minister, Count Vorontsoff-Dachkoff, have thanked the Jewish community for their message of condolence upon the death of the czar and for the loyal and patriotic sentiments thereupon expressed by the Jews. The body of the czar was removed at 8 o'clock Thursday morning and escorted with great ceremony on board the Russian cruiser Panyat Moravia for transportation to Sebastopol.

**Gov. Waite Retired.**  
DENVER, Col., Nov. 9.—Molayre's plurality for governor is estimated at 10,000 on the basis of the returns so far received from all over the state. Arapahoe county his majority over Waite is 16,390, with seven precincts missing. Waite ran 3,900 votes behind his ticket. The populists claim the legislature will be a tie on joint ballot, but the republicans figure on a majority of 10.

**They Will Join.**  
RENNVILLE, Ind., Nov. 9.—The election of Watson over Holman is officially announced by the committee. Congratulations are pouring in to Watson from republicans in all parts of the United States. Rush county gives him 751 plurality, a republican gain of 400. Preparations are being made for a grand ratification.

**Washington State Election.**  
SEATTLE, Wash., Nov. 9.—Enough has been learned to state that the next legislature will be republican, with a probable majority of 30 on joint ballot. The republican congressional ticket is elected as well as supreme court judges. The populist state ticket will pull a heavier vote than the democratic.

**San Francisco, Cal., Nov. 9.**—The election of Watson over Holman is officially announced by the committee. Congratulations are pouring in to Watson from republicans in all parts of the United States. Rush county gives him 751 plurality, a republican gain of 400. Preparations are being made for a grand ratification.

THE MAYSVILLE REPUBLICAN

WEEKLY PUBLIC LEDGER.

Did U?

Did you ever think that relatives or friends who have moved to distant places—gone West, perhaps, to grow up with the country—are always glad to hear from their "Old Kentucky Home"? And did it ever occur to you that a single copy of THE MAYSVILLE REPUBLICAN—the weekly edition of The Public Ledger—contains more home news than you could embrace in a hundred ordinary letters? And did it ever strike you that you can send the paper to your relatives and friends for a whole year at less cost than you can write a letter every week? Besides, don't you think a year's subscription to THE MAYSVILLE REPUBLICAN would be greatly appreciated by those at a distance? Suppose you try it and hear what they have to say on the subject.

TRY IT!

## TEXAS, TOO.

Doubtful Whether the Democrats  
Elect Their Governor.

The Election of Nugent, the Populist  
Non one, a Possibility.

The State, However, Claimed by Both Parties,  
the Populists by a Plurality of  
40,000 and Democrats by 20,000.

—Four Populist Congressmen.

NEW ORLEANS, Nov. 8.—The Times-Democrat's Alliance special says: "Texas, too, was caught in the land slide, but by populists instead of republicans. The time was pluralism of 1890 for democracy is a thing of the past. To-day's returns very materially change the situation in that of yesterday, when the democrats were confident of a plurality of 40,000, while to-night they will be satisfied if barely elected."

Every return throughout the state received Thursday shows phenomenal populist gains and may possibly indicate the election of Nugent, the populist nominee for governor. The state was Thursday night claimed by both parties. The populists claim a plurality of 40,000 for Nugent, while the democrats only claim a state for Cleveland by 30,000. The democratic strongholds have been heard from, while the populists are in the active returns from the country districts.

DALLAS, Tex., Nov. 8.—The judges are still counting the ballots. Mayor (pop) for congress, so far, returns are in from Dallas county, Lewis Abbott (dem.) by about 600. It is nearly certain that in the 10th, 11th and 12th districts the race is in the hands of the populists.

Despite dispatches Thursday the election of Gillard (pop.) over Bell (dem.) in the Thirteenth district is assured. The democrats have certainly lost two and possibly three or four congressmen.

The populists here claim Nugent's election for governor.

While many democrats are dumfounded at the cyclone which has well swept the party out of existence, others are not so dumfounded. They say that Cleveland and congress have failed to carry out the wishes of the people, and have betrayed every trust that all confidence in them.

There is talk of forming a new national party with a new name upon the best principles of the democratic, populist parties and old line whig platforms.

Fined for Defrauding the Government.

St. Louis, Mo., Nov. 9.—In the federal district court Judge Wolcott fined Dr. A. Wright, of Carroll, and Dr. S. C. Dunlop, of Glendon, \$1,000 each, and Dr. A. S. Gockley, of Carroll, \$1,000, for defrauding the government of three physicians constituted the pension examining board at Carroll. All prominent and well-to-do physicians are wealthy. It was their practice to allow one of the board to examine all pension applicants, and all three would certify as to the result and collect the regular fees. They have already returned to the government most of the fees wrongfully collected.

Mr. Cleveland to Christen a Vessel.

WASHINGTON, Nov. 9.—President and Mrs. Cleveland will leave Washington this morning for Philadelphia, where Mrs. Cleveland will christen the new ocean liner St. Louis. They will leave on a special train over the Pennsylvania, accompanied by all the members of the cabinet and the ladies of their families, except Mr. and Mrs. Russell, the former being ill, and the latter, secretary. They will run directly to the shipyard, and at high tide the launching will take place, after which the party will partake of luncheon and return to Washington in the evening.

A. P. Under Another Name.

CHICAGO, Nov. 9.—A special edition was prepared in Chicago Thursday morning and forwarded to Secretary of State Henshaw, asking that a charter be granted an organization to be known as the Independent American Citizens' party. The incorporators are Walter Sims, formerly national lecturer for the A. P. A. Wm. E. Serrin and Arthur W. Slaughter. The new association is the outgrowth of internal dissensions in the American Protective Union, and will have the same objects, ambitions and theories as the old organization.

Alabama Has Four Contests.

BIRMINGHAM, Ala., Nov. 9.—There is a strong probability that the republicans in Alabama will get four of the nine congressmen in the state. Con. Fifth, Howard in the Seventh, T. H. Aldrich in the Fourth and W. F. Aldrich in the Ninth. Reports are coming that four and possibly five of the congressmen from this state.

Forest Fire in Tennessee.

BROWNFIELD, Tenn., Nov. 9.—Several days ago the fire broke out at Bottom, eight miles west of Brownfield, caught fire. At the time little attention was paid to it, but since then with winds from the west, the fire has spread, approaching the city rapidly. It is now within four miles of the city, destroying everything in its path.

Huge Wall Contested.

ROANOKE, Va., Nov. 9.—J. Hampton Hoge, republican candidate, defeated for congress in the Sixth district by Peter K. Okey, democrat, with 5,000 votes. He claims that 4,000 legal votes cast for him were thrown out by the judges of election, and charged and a large wall is blowing. The storm is greatly impeding traffic, street cars running with difficulty.

Indiana Legislature.

INDIANAPOLIS, Ind., Nov. 9.—It is practically concluded Thursday night that in the next legislative session there will be 81 members in the house and 18 in the senate. The democrats 18 senators and an equal number of representatives.

## SCHOONER LOST.

Four of the Crew Drowned, and Three Others Have an Ailing Experience.

BALFAIR, N. B., Nov. 9.—News of the loss of the schooner Coronet while on a voyage from Halifax to Cuba with a cargo of fish, was received by the owners here Thursday. Four of the crew were lost, and the other three lived through a terrible experience that it would seem impossible for human beings to survive. These men were taken off the dismasted, derelict vessel by the crew of the steamer Corolla Prince from New York for Trinidad, on October 18. They were found lashed to the house. They were almost naked, and were terribly bruised and burned by the sun. They had been lashed in their perilous position from Monday night Thursday morning, without food or water, and in that time had seen four of their companions washed overboard and drowned.

—Four Populist Congressmen.

NEW ORLEANS, Nov. 8.—The Times-Democrat's Alliance special says: "Texas, too, was caught in the land slide, but by populists instead of republicans. The time was pluralism of 1890 for democracy is a thing of the past. To-day's returns very materially change the situation in that of yesterday, when the democrats were confident of a plurality of 40,000, while to-night they will be satisfied if barely elected."

Every return throughout the state received Thursday shows phenomenal populist gains and may possibly indicate the election of Nugent, the populist nominee for governor. The state was Thursday night claimed by both parties. The populists claim a plurality of 40,000 for Nugent, while the democrats only claim a state for Cleveland by 30,000. The democratic strongholds have been heard from, while the populists are in the active returns from the country districts.

DALLAS, Tex., Nov. 8.—The judges are still counting the ballots. Mayor (pop) for congress, so far, returns are in from Dallas county, Lewis Abbott (dem.) by about 600. It is nearly certain that in the 10th, 11th and 12th districts the race is in the hands of the populists.

Despite dispatches Thursday the election of Gillard (pop.) over Bell (dem.) in the Thirteenth district is assured. The democrats have certainly lost two and possibly three or four congressmen.

The populists here claim Nugent's election for governor.

While many democrats are dumfounded at the cyclone which has well swept the party out of existence, others are not so dumfounded. They say that Cleveland and congress have failed to carry out the wishes of the people, and have betrayed every trust that all confidence in them.

There is talk of forming a new national party with a new name upon the best principles of the democratic, populist parties and old line whig platforms.

Fined for Defrauding the Government.

St. Louis, Mo., Nov. 9.—In the federal district court Judge Wolcott fined Dr. A. Wright, of Carroll, and Dr. S. C. Dunlop, of Glendon, \$1,000 each, and Dr. A. S. Gockley, of Carroll, \$1,000, for defrauding the government of three physicians constituted the pension examining board at Carroll. All prominent and well-to-do physicians are wealthy. He claims that 4,000 legal votes cast for him were thrown out by the judges of election, and charged and a large wall is blowing. The storm is greatly impeding traffic, street cars running with difficulty.

Indiana Legislature.

INDIANAPOLIS, Ind., Nov. 9.—It is practically concluded Thursday night that in the next legislative session there will be 81 members in the house and 18 in the senate. The democrats 18 senators and an equal number of representatives.

## THE RESUME.

Echoes From the Late State  
Elections.

Dockery Likely Pulls Through in the  
Third Missouri District.

Democrats Get Another District in Pennsylvania, Headed in Missouri, Defeated Small Majority—Populists' Strength in Texas and in North Carolina.

NEW YORK, Nov. 9.—Returns from the congressional election received Thursday show but few changes from the figures given out on Wednesday night.

The republican success in Missouri grows, although it is likely that Dockery has pulled through in the Third district. In the Second district H. Loomis (rep) won, and W. M. Treloar defeated Champ Clark in the Ninth. H. A. Mosley (rep) won in the Fourteenth. (Rep.) is defeated by a small plurality.

Dew in Virginia J. Hampton Hoge did not win after all, though he made a close fight with Peter J. Orey.

The democrats get one more district in Pennsylvania, the Eighth, electing J. J. Hart over W. S. Kirkpatrick.

The populist and republican fusion in North Carolina returned four populists and two republicans, leaving the democrats three districts.

The populists succeeded in electing Kern in the Sixth Nebraska district, but lost the fight to W. E. Anderson (rep.).

In Colorado it seems probable that John C. Bell (pop.) defeated ex-Senator Roever.

In Texas the populists developed surprising strength, and the democrats have lost two congressmen and perhaps four. Late dispatches from Texas say that Nugent, the populist nominee for governor, may be elected.

There seems no doubt of the complete fusion victory in North Carolina. One of the United States senators will be the republican, the populist leader in the state. The democrats will have three congressmen with one district in doubt.

No definite news has been received changing the figures in Kentucky. One or two districts are in doubt, and the republicans claim that six, and possibly seven of their congressional candidates have been elected.

Latest reports from North Carolina confirm the estimate made Thursday night in these dispatches of the result of the contests for congress—that one republican, three democrats and five populists have been chosen in the state.

Although the republicans carried Nevada and California by large majorities, they have lost the governorship in each state.

Both sides still claim Tennessee; but Evans (rep.) is ahead 3,000 votes in the race for governor, and far as returns have come in, the legislature is safely democratic.

THE MARKETS.

CHICAGO, Nov. 9.—WHEAT—Sales of spring wheat at 15.50; winter wheat at 15.00. CORN—Sales of yellow corn at 1.00; white corn at 1.05. RYE—Sales of rye at 1.00. BARLEY—Sales of barley at 1.00. HAY—Sales of hay at 1.00. CATTLE—Sales of cattle at 1.00. PORK—Sales of pork at 1.00. LARD—Sales of lard at 1.00. SUGAR—Sales of sugar at 1.00. COFFEE—Sales of coffee at 1.00. TEA—Sales of tea at 1.00. SPICES—Sales of spices at 1.00. OILS—Sales of oils at 1.00. FURS—Sales of furs at 1.00. GUMS—Sales of gums at 1.00. RESINS—Sales of resins at 1.00. GLASS—Sales of glass at 1.00. CEMENT—Sales of cement at 1.00. BRICKS—Sales of bricks at 1.00. LUMBER—Sales of lumber at 1.00. IRON—Sales of iron at 1.00. STEEL—Sales of steel at 1.00. Highest of all in Leavening Power.—Latest U. S. Gov't Report.

# **Paul Baking Powder** **ABSOLUTELY PURE**

**OUR DAILY MAIL.**

(The Editor of THE LEDGER is not responsible for the opinions expressed by Correspondents, but nothing reflecting upon the character or habits of any person will be admitted in these columns.)

Correspondents will please send Letters as far as possible not later than 3 o'clock a. m. Give facts in as few words as possible. We want news in this department, and not advertising notices or political arguments.

## **OUR AGENTS**

The following are authorized Agents for THE PAUL BAKING POWDER in their respective localities:

**Miners**—Frank W. Hawes, Sordley & Co. Griggsville, Springfield—C. C. Deegan, Springfield—Charles W. Wheeler, Yonkers—Mrs. Jennie Stewart, Mt. Carmel—Lilly & Foxworth, Augusta—Leland Tully, Fred—Joseph W. Williams, Blue Springs—H. Hunter, Donr—Thad. V. Moore, Mt. Glend—Jacob Thomas, Donr.

Subscribers will have the trouble of later writing by paying their subscriptions to the Agents at their homes.

The funeral of the late William Price took place yesterday afternoon from the residence of his parents in the Fifth Ward.

The outlook for an early general resumption of navigation is again most encouraging, and river men are assuming an air of confidence.

Oklahoma, down in Bracken, was the scene of a bloody factional fight, the outcome of which may demand the services of an undertaker. Marshal Uley, John Hamilton and John Woods are lying under the doctor's hands with slight chances of recovery.

**CHARLES B. RYAN.**

*A Mysterious Boy Who Has Cured His Own Wife.*

One of the leading passenger agents of Cincinnati is Charles B. Ryan, the Assistant General Passenger Agent of the Chesapeake and Ohio Railroad.

Several years ago the C. and O. was comparatively unheard of, and was considered anything but a competitor to other Eastern lines, but in later years it has sprung into prominence as one of the best and most perfect railroads in every particular, and now it gives them all a strong fight for the business.

This change has, with the excellent service of the road, been brought about by "Charlie" Ryan, through his unique manner of advertising, and it is claimed by well informed railroad officials that the F. P. V. (Fast Flying Virginia) train on the C. and O. is one of the best known passenger trains in the country.

Mr. Ryan is a Kentuckian. He was born at Mayville, May 16th, 1856, and entered the railway world at Richmond, Va., in 1880, as a freight clerk for the Atlantic Coast Line, but a year later accepted service with the Chesapeake and Ohio at Richmond as chief supply clerk in the passenger department and has "done time" in every branch of the department of the C. and O. road, working his way up step by step, until now at the age of 38, he finds himself the Assistant General Passenger Agent of the entire system, to which position he was appointed April 1st, 1893.

Mr. Ryan is considered one of the best advertisers among the passenger men's fraternity, and is regarded by his superiors as a man of worth and ability and one whom it would be a difficult task to replace. He is one of the clearest of gentlemen, kind hearted, generous and of a lovable disposition, and his phenomenal success recalls the old adage of Wirt, "There is no excellence without great labor." The service of the C. and O. is far excellence and unsurpassed.

## **DREW ON THE SULTAN.**

*And His Draft Went Through Without a Question.*

A large operator and speculator of St. Louis, whose account with one friendly bank had often been temporarily overdrawn, wanted \$10,000 once for a certain deal; his balance in bank at that time being less than \$100.

The Cashier suggested that he should draw upon some party not too near St. Louis. Smith said he did not know whom to draw upon.

"Oh, anyone," said the obliging Cashier, "as long as the party is far enough away—that will give you time to turn around."

Smith drew at sight for \$10,000 on the Sultan of Turkey. The draft was duly forwarded by the bank, reaching New York, whence it was sent to a London correspondent.

It then came into the hands of the Rothschilds, who forwarded it to their Constantinople branch, where it was duly presented for payment to the Sultan's chamberlain, the latter bringing it to his Highness.

"Who is this John Smith?" said the Sultan.

"Don't know," replied the chamberlain.

"Do we owe him anything?"

"No, Your Majesty the other."

"Then I'll not pay it," replied His Highness.

"One moment, if I might advise," said the astute courier, "this draft comes through the Rothschilds, with whom you are seeking a \$2,000,000 loan. Would it be safe, under the circumstances, to dishonor it?"

"Pay it!" said the Sultan, and it was paid, and no one was more astonished than John Smith of St. Louis and the quick-witted Cashier.

"Who is this John Smith?" said the Sultan.

"Don't know," replied the chamberlain.

"Do we owe him anything?"

"No, Your Majesty the other."

"Then I'll not pay it," replied His Highness.

"One moment, if I might advise," said the astute courier, "this draft comes through the Rothschilds, with whom you are seeking a \$2,000,000 loan. Would it be safe, under the circumstances, to dishonor it?"

"Pay it!" said the Sultan, and it was paid, and no one was more astonished than John Smith of St. Louis and the quick-witted Cashier.

"Who is this John Smith?" said the Sultan.

"Don't know," replied the chamberlain.

"Do we owe him anything?"

"No, Your Majesty the other."

"Then I'll not pay it," replied His Highness.

"One moment, if I might advise," said the astute courier, "this draft comes through the Rothschilds, with whom you are seeking a \$2,000,000 loan. Would it be safe, under the circumstances, to dishonor it?"

"Pay it!" said the Sultan, and it was paid, and no one was more astonished than John Smith of St. Louis and the quick-witted Cashier.

"Who is this John Smith?" said the Sultan.

"Don't know," replied the chamberlain.

"Do we owe him anything?"

"No, Your Majesty the other."

"Then I'll not pay it," replied His Highness.
